This Term, I am learning…

Bracebridge Infant and Nursery School

Term: Autumn 2

Topic: A Big, Wide World

Physical Development:

beyond the physical

Children will travel with confidence and skill around, under, over and through balancing and climbing equipment. They will use their newly developed pencil grip to begin to form recognisable letters independently. In discreet PE sessions children will develop fundamental skills such as locomotion, balance and object manipulation.

Personal, Social and Emotional Development:

Opportunities to talk in a familiar group will allow children to develop confidence in speaking to others about their needs, wants, interests and opinions. Through our new understanding of emotions, children will be able to talk about their own and others' feelings, behaviour and its consequences. Children will be proactive in seeking support from adults if needed.

Communication and Language:

Children will continue to develop their listening and attention behaviours for sustained periods. They will begin to understand who, why, when, where or how questions. Children will also continue to learn and use new vocabulary taught, beginning to include this to imagine and recreate experiences in play.

Literacy:

Read Write Inc. Phonics

Children will continue to expand on their sound knowledge and will begin to identify recognisable letters in sequence, such as their own name. Children will also learn to write their names. They will start to segment sounds in words to spell and be more confident with blending sounds together. They will develop awareness of rhyme and be able to continue a rhyming string. Children will also learn that information can be retrieved from books and computers.

Mathematics:

White Rose Maths

Children will begin number work this term- learning to recognise, count, subitise and partition numbers to 5. Children will also begin to learn about 2D shapes circles, squares, triangles and rectangles. They will learn to name, recognise and begin to describe their properties.

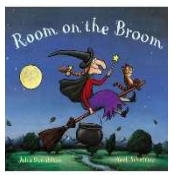

Expressive Arts and Design:

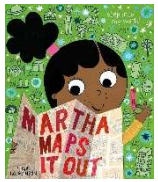

Drawing Club

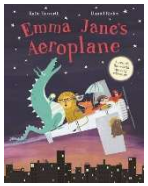

Children will use line, colour, shape and space to create with purpose and intent. In music, we will begin to build a collection of songs and dances, as well as making music in a variety of different ways. We will begin to introduce a storyline or narrative into their play. We will also practice and perform a Nativity performance.

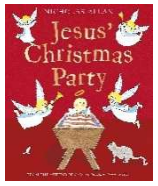

Our Favourite Five Stories:

Understanding the World:

Children will learn what we mean by 'past' and 'present' and will talk about this in different contexts such as Remembrance Day and Bonfire Night.
They will learn all about the world they live in and compare some similarities and differences to other countries.
Children will also begin to spot patterns in nature such as seasons. In RE, we will be learning who is special to different worldviews and religions.
Please note, you have a right to withdraw your child from specific RE learning. Please speak with Miss Burnett/ Mrs Wilson for more information.

Seesaw Keeps everyone in the learning loop

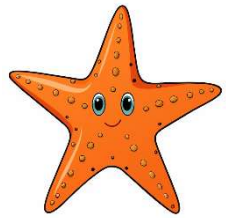

Please do take time to check your child's Seesaw account each week. It shows what your child has been learning and doing in school and provides a lovely opportunity for you to sit down together and chat about their day. There will also be opportunities shared for home learning, so that you can get involved at home and see just how amazing your child is!
